Of Special Interest This Week

25X1 + FBIS London Bureau, using an advance Russian-language copy of President Reagan's New Year's Day address to the Soviet people, was able to confirm almost immediately at broadcast time that the version of the message actually broadcast in Russian on Moscow TV was identical to the prereleased remarks except for several minor grammatical changes. This was followed up by reports on the amount of time devoted by the Soviet media to the remarks by the President and General Secretary Gorbachev. Seven videotapes of the message as carried on Moscow TV were prepared in Washington and available to consumers immediately.

25X1 + The Analysis Group prepared for ACIS on 30 December an assessment of recent Soviet statements on on-site inspections of nuclear tests. The analysis took note of Soviet formulations regarding inspection and verification.
